Step 1

Cross over Netherfield Road South into the park opposite and follow the path along to the left and take the first right hand fork. There is a slight hill and then you will come to Parkside Street where you will join the road for a short while and take a left to join the park again. Follow this path until you reach Village Street. Ride to the top of the street and take another left into Everton Park. Follow the path round to the car park and stop to take in the best view in Liverpool. There is a more direct route up from Netherfield Road South using the 810 cycle route which is a very steep gradient so not suitable for beginners!

Step 2

Continue through the park on the opposite side of the car park straight across until Northumberland Terrace. Turn right onto this road and ride to the top of the road to meet Heyworth Road. At this junction take a left and immediate right down Mere Lane. Ride to the bottom and then left on to Robson Street.

Step 3

Ride until you reach a set of traffic lights where you will take the right hand lane to go straight on to Sleepers Hill. At the end of Sleepers Hill take a right and then a left into the car park of Stanley Park. Once you are in Stanley Park there are many different paths and routes to explore as well as the Isla Gladstone conservatory where there is a café.

Return journey via same route.
